MONEY MARKET.

SUNDAY, May 5-6 P. M. The Inspector General of Canada has just laid before ne Legislature the annual tables of the trade and naviga son of that province for 1852, made up to the fifth of ast January, a document prepared with great cure, and forming a volume of four hundred and forty eight pages, from which we perceive there has been a falling off in the importations from Great Britain during the past year to the extent of \$1,377,000. This appears to have been the result, however, of an excess of importations from that country in 1851, which exceeded those of 1850 by \$2,416,the North American colonies of \$43,972, from the United States to the amount of \$111 928, and from other foreign shew an increase of \$1.407.054 over those of the preceding year; and the total net revenue last year was \$2,822,-

ing an excess over 1851 of \$13,660. The total amount of imports last year was \$20 286,490,
